

Two for Two!

SeeControl Selected For Second Consecutive Year As One Of *Global Logistics & Supply Chain Strategies Magazine's* Prestigious 100 Great Supply Chain Partners

SeeControl continues to be recognized as supply chain leader

San Mateo, CA - July 10, 2006 - SeeControl, the leader in on-demand inventory control, visibility, and intelligence, today announced that *Global Logistics & Supply Chain Strategies Magazine*, the premiere publication for executives at the highest levels of supply chain management, has recognized SeeControl as one of its 100 Great Supply Chain Partners for 2006. This award sees SeeControl being named to the exclusive list for the second consecutive year, as the supply chain leader was named to "*The List*" for the first time in 2005.

"SeeControl is flattered that our customers hold us in such high esteem," said Garrett Gafke, president and CEO for SeeControl. "SeeControl's selection as one of *GLSCS's* 100 Great Supply Chain Partners is testament to the company's ability to deliver top-notch value and service to its customers; illustrating our dedication to their overall success."

The *Global Logistics & Supply Chain Strategies* 100 Great Supply Chain Partners program is the result of a six-month poll in which the magazine asks logistics and supply chain professionals to nominate vendors and service providers whose technology, logistics, transportation or consulting solutions have made a significant impact on their company's efficiency, customer service and overall supply chain performance.

"In 2006, *GLSCS* received more than 1,800 nominations from small and large companies covering scores of different industries on five continents," said Brad Berger, group publisher for *GLSCS*." "More than 400 vendors of every conceivable type of supply chain activity were nominated - from very specialized technologies, to third-party logistics providers to highly specialized transportation services. The 100 companies that received the most qualified nominations were selected to this year's list. Congratulations to SeeControl, Inc. for being selected as a 2006 *GL&SCS* "Great Supply Chain Partner."

About SeeControl

SeeControl is the leader in providing real-time visibility and data from the edge of supply chain. Through a web-based data collection and item management platform, companies can oversee distant inventories held at customer sites, partner locations, enterprise data centers and plant floors. SeeControl customers improve the quality of reporting and analysis from these locations and act automatically --- increasing customer responsiveness with less inventory and operational cost. For more information, please visit www.seecontrol.com or call 650-312-1100.
